

Confetti System

Alessandro Gonzalez

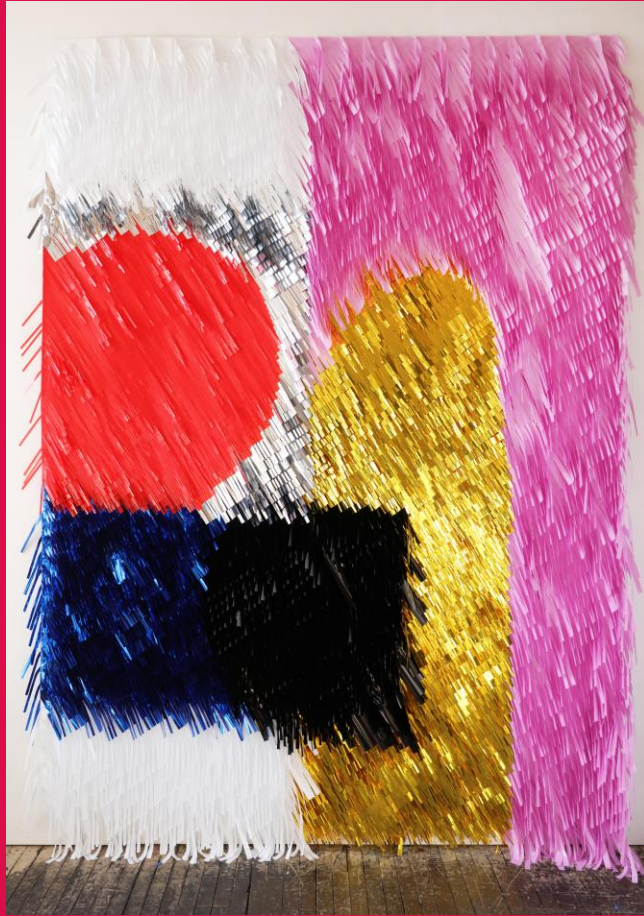

Introduction

- Created in 2008, Confetti System is a duo of artists, creating objects and installations out of material like: tissue paper, cardboard, silk, etc.
- Consists of Julie Ho and Nicholas Valite Anderson
- Their work has been exhibited in New York, Los Angeles, Miami, Japan, and Australia.
- Started by creating objects for special celebrations, like birthdays

Installations

Custom Complex Fringe Panel for Pierre Hardy's holiday store installation. New York. December 2017

"Our work is an expression of our combined cross-cultural memories, drawing inspiration from rich sensorial experiences within temples, clubs, and other places of healing."

- Confetti System for The FG Magazine

Site Specific Installation For Mission Chinese. New York. January 2016

Set Design

"The objects and installations occupy a space between the ephemeral and the permanent with a sense of nostalgia and lighthearted fun."

- Confetti System for their website

Objects

Untitled

Untitled

"...Confetti
System's
scenes
evoke
memories of
leis, lanterns
and lucky
envelopes."

- The FG
Magazine

Final Thoughts

- I love how dynamic all the materials are; they add a new dimension that is absent in traditional fabric
- All the color schemes are truly right up my alley, I love them
- I love how grand all the pieces are, but I wonder how one might transform space with smaller, more intimate objects

Site specific installation for *NYC Makers*, The Museum of Arts and Design Biennial exhibition, New York 2014
